

Hall 1

As of 2013 the three-storey hall complex with the City Lounge constitutes the new centrepiece of Messe Basel. The building designed by Basel architects Herzog & de Meuron constitutes an extension to Hall 1, which was opened back in 1999. You will be able to walk directly from the tram stop into the Hall, through the two inviting entrance foyers, all on the same level. The multifunctional, pillar-free Event Hall is also located on the ground floor. With a continuous surface of 420 metres, Hall 1 makes for a unique atmosphere.

Exhibitions with multi-storey stands (hall height up to 10 metres), events with stage and platform structures and also other major events are just a few of the countless possibilities for this unique building. Hall 1 will satisfy all the requirements placed on technology and comfort to a high standard. The operational concept with both underground and ground-level delivery will guarantee the efficient assembly and dismantling of the different installations. Hall 1 is linked directly to Halls 2, 3 and 4 via a walkway.

Hall 1: Facts and figures

Key figures

Years built	1999 2013
Architect	Theo Hotz Herzog & de Meuron
Floor plan	90 × 420 m
Storeys	3 (+ basement)
Overall area	74 000 m ²
